1. **Mode of teaching:**

The institution is adopting various forms of methodologies to impart education to students. Learning is made more student centric through combination of teaching modes like lecture, along with ICT blended, flipped classrooms, workshops and seminars.

1.1.1 Lecture mode of teaching ensures memorization, reading aloud and fresh talk, usually the lecturer stands at the front of the room and recites the relevant information related to the

content. The main visual ad is the board, and the material is presented to encourage discussions, questions and comments. Many disciplines like Sociology, English, Political Science, Public Administration, Hindi, Sanskrit, History practice lecture mode for undergraduate students.

1.1.2   Blended Learning is a teaching and learning method that combines traditional classroom methods with online activities. The method integrates technology and digital media with traditional instructor-led classroom activities, giving students more flexibility to customize their learning experience. The institute follows an instructor-led classroom, where lecture is delivered with interactive panels as the visual aid, allowing for audio-visual assistance. Many disciplines like Physics, Chemistry, Zoology, Geography, Economics, Education, Geology, Journalism and Mass Communication, Botany, Commerce and Mathematics practice blended mode of teaching at the undergraduate level. This mode of teaching allows for interactive and student centric learning. The various modules of ICT are utilized for the overall growth of students.

1.1.3   Flipped Classroom: It is an instructional strategy and a type of blended learning, that inverts the typical cycle of content acquisition and application so that students gain necessary knowledge before class and the professors guide students to actively and interactively clarify and apply that knowledge during classes. This method is practiced in the post graduate classes of English and Economics discipline. It is also practiced in disciplines like Physics and Zoology for undergraduate classes.

1.1.4   The above modes of teaching are used interchangeably as per the need of different groups of students. The professors switch between modes as per the syllabi and student understanding. It ensures student centric learning, emphasizing the need for overall development of the class.

2. Curriculum Planning and Implementation:

The institute has made the following provisions to ensure optimum curriculum planning and implementation strategies.

1.2.1   Teaching Schedule: The institute follows a rigorous teaching schedule, between 10:00 AM to 4:00 PM for all undergraduate and postgraduate courses. The schedule is attached herewith as annexure I.

1.2.2   Learning Outcomes are well defined and extensively discussed in the introductory lectures by the teachers of all the subjects concerned. Detailed learning outcomes are attached herewith for the disciplines under various courses offered within the subjects as annexure II.

1.2.3   Curriculum enrichment practices: A persistent effort is made to provide the students with application-based knowledge. The discourse is designed in a way to ensure curriculum enrichment practices such as projects, surveys, tours and industry visits. The document of various curriculum enrichment practices is attached herewith as annexure III.

1.2.4   Internal Assessment mechanism:

Continuous Comprehensive Assessment is followed. Assignments are evaluated in the class room. Class tests, quizzes, presentations etc. are conducted in the class room to assess how much the student is learning in the class. Mid Term Test Committee is constituted for the smooth functioning of the exams which are conducted usually in the month of December to evaluate the performance of the students.

Date sheet is circulated in the WhatsApp groups and is also displayed on the notice boards. Question papers are set up by the respective teachers based on the pattern set for final exams so that the student gets an idea about the term end examination. Mid Term exam is like giving the students a practice of how to attempt the final paper. Answer sheets are evaluated by the teachers who tell the students how they can improve upon the attempt they have made so as to score well in final examination.

As the college is affiliated to Himachal Pradesh University, the institute follows the guidelines regarding assessment and evaluation as received from the university. This helps in carrying out the evaluation and assessment in a systematic manner for theory as well as practical courses.

1.2.5 Prompt Communication of Assessment/Results to Students

Mid-term exams are planned after the completion of maximum syllabus. Paper setting is done by the respective subject teachers. After the evaluation of the answer scripts, it is shown to the students so that everything is transparent and there is no grievance related to the marks obtained by the students. Marks obtained by the students in different subjects are shared in their respective subject groups by their teachers. Award list is also submitted to the Controller/Convenor of Mid-term test committee for keeping a record of the student academic growth or decline. Due to some unforeseen circumstances or medical issue, if the student is unable to appear for the exam as per the date sheet, a re-test is scheduled for the student by the respective subject teacher with prior permission of the principal.

The complaints or grievances related to internal examination are dealt by the internal examination committee of the college. A well-organized mechanism for the redressal of

examination related grievances is followed. A student can approach the teachers, internal examination committee and the principal to redress the grievances as per the requirement.

1.3. **Add-on Courses/Certificate Courses:** None. The institute does not offer any add-on courses to the students. However, teachers do encourage students to register on various MOOCs platforms to enhance their learning experience.

1.4 Student Feedback

1.4.1Sample Size: The student feedback was collected from a sample size of 1175 students, estimated to be 30% of the total admission count received for the academic session of 2023-24.

1.4.2 The current sample size depicted that the students were satisfied with the following parameters:

a. Relevance / importance of syllabus: a total of 93.5% students were satisfied. With the syllabus and its significance.

7. Relevance/ Importance of the syllabus
1,175 responses
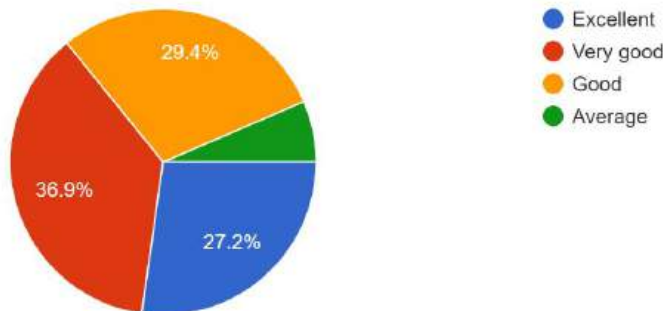

b. Balance between theory and practical: a total of 90% students were satisfied with the balance maintained between theory and practical and the remaining 10% felt the balance was average.

8. Balance between theory and practical
1,175 responses

Criterion-4 Institutional Management(220)

S.No	Activity		Score	
1.	Institutional vision 1. Vision document	Government College Solan, a beacon of Higher Education, envisions a dynamic learning community dedicated to excellence. In keeping with its mission to promote quality based education the college ensures ideal environment for students. The college facilitates students with opportunities to hone their potential for their better future. Students are sensitized towards inclusive social concerns, human rights, gender and environmental issues to help thembecome better citizens. The Principal provides effective leadership by promoting a culture of collaborative decision making through active involvement of all relevant stakeholders. Periodic review meetings of various committees constituted for the smooth functioning of the college are held to ensure effective administration, accountability and overall well-being of the college. Strategic plans are framed by keeping in view the rules framed by UGC and guidelines given by HP University along with the direction received from the Directorate of Higher Education. During the execution of the plans, feedback from the stakeholders is taken into consideration. IQAC plays a proactive role in implementing various mechanism for quality assurance of the college. Adoption of technology for improving administrative efficiency and enhancing learning experience has beenundertaken. Information system for the benefits of all the stakeholders are regularly upgraded.	6	
	Ii. Institute Development nt plan	Since its inception, the college has dedicated itself fully to realising its mission of providing students with a top-notch education and empowering them with the necessary academy and practical skills for overall success in life. We truly believe that a high-quality education is essential for enabling young mind to become resourceful, self-sufficient and to cultivate an	6	

		inclusive and diverse worldview. For fulfilling this vision, the institution complies with the directives received periodically from the DHE, as well as, the regulation established by the UGC and HP University. In light of this, the Principal, in association with all the committees established to ensure the seamless administration of various activities, frames quality based realistic strategic plans. Regular meetings with the HODs and heads of various committees are convened by the Principal to evaluate the progress of plans being executed. In order to promote academic progress IQAC plays a pivotal role in formulating the perspective plans. Participation of PTA and OSA is also insured for the same. The Annual Report reflecting the yearround progress made by the college together with the outline of the perspective plan for the next session is presented by the Principal in the annual function of the college.

1. CLEANLINESS DRIVE

Date:- 19th August 2023

On **19th**August 2023, , NCC cadets of Govt. College Solan organized a Cleanliness Drive in the college campus. Total 35 cadets took part in this drive, and gave their contribution towards the environment, by cleaning the whole campus. That day was also the inauguration day of our College. Cadets of the NCC clean the college campus as well as the surroundings of the campus and disposed the garbage.

2. Observation of environmentally important days:

World Ozone day: Eco Club, Govt College Solanobserved World Ozone Day on September 16, 2023

World Environment Day: 5ᵗʰ June 2024.

3. **Eco-Club** has been constituted in the college to Spread awareness about importance of green and clean environment

4. Green audit:

Green Audit is conducted by the college with the aim to analyze the environmental practices within and outside the college campus, to create an impact on the eco-friendly ambience. In alignment with the sustainable development, Govt College Solan primarily focuses on enhancing the green cover inside and around the college premises along with adopting energy efficient methods as far as possible. Initiatives like assessment of biodiversity status, use of Solar lights, CFL tubes and bulbs, Rain water harvesting etc have been taken in this direction.

Objectives of Green Audit: The main objective of green audit is to secure the best practices for environment sustainability. The specific objectives are: ● To prepare a list of flora diversity in the college campus. ● To provide safe and clean environment in the campus. ● To reduce energy consumption to stimulate environment. ● To suggest measures to improve biodiversity in the college campus.

5. Constitution of Green Audit Committee:

An internal committee was constituted to evaluate the policies formed under Green Audit

6. Solid Waste Management Pit

GC Solan build a pit for the management of solid waste in college premises by converting it into compost with the aid of vermin culture sponsored by HIMCOSTE.

7. Awareness Programs:

To create awareness among the students about the protection of the environment, the Eco Club, Government College Solanorganised an environmental protection fortnight from 22nd May 2024 to 5th June 2024. About 80 students participated in the program. Various activities were organized in the fortnight such as:

- The preparation of flower beds and plantations in them by the students,

- Best Out of Waste competition wherein planters were made by the students from waste items in homes followed by planting saplings in them

- Workshop on Vermin composting
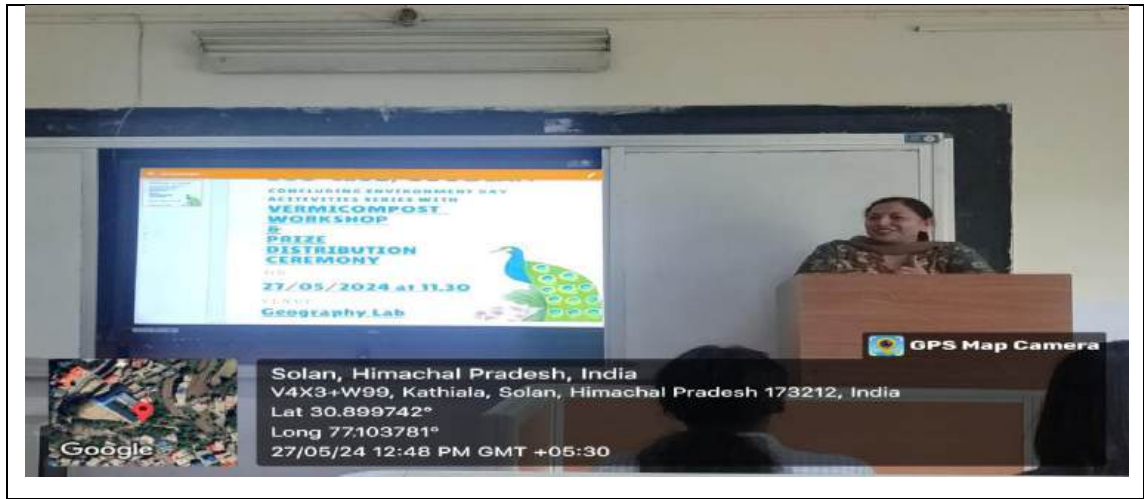

An internal committee was constituted to evaluate the policies formed under Green Audit as attached below:

OFFICE ORDER

As per the requirement of NAAC Accreditation procedure, every college should have a Green Audit Committee to formulate an environment policy and to monitor its adherence to environmental friendly ways of functioning. A committee with the following members is hereby constituted by the undersigned.

Convener: Dr. Hemant Shandil
Members: Dr. Yogesh Jain
    Dr. Anil Thakur
    Dr. Nek Ram
    Aarti Negi
    Dr. Manju Thakur
    Dr. Geetika Thakur

GOVT. COLLEGE SOLAN
ENVIRONMENT POLICY

In order to work in environment friendly manner, Govt College Solan aims to focus on Reduce, Reuse and Recycle the waste as far as possible. For this the Green Audit Committee advocates the implementation of following measures to be taken inside the college campus as part of its environment policy.

- Reduce the amount of paper waste by adopting digital mode for internal working of the college. Print outs to be discarded by using on the both sides.
- Proper segregation of solid waste to be done by placing Red, Blue and Green dustbins inside the campus.
- Avoid utilization of plastic and aluminum foils by the students and staff for carrying eatables in the campus and promote the usage of steel and glass instead.
- Sensitize the students to enhance and protect the green cover of the college.
- Spread environment literacy by celebrating important days of relevance.

Convener: Dr. Hemant Shandil

Feedback on syllabus and its transaction Feedback from teachers and alumni was taken through Google form, shared with the respondents through various virtual modes. The link for the same is also available as web link. A summary of the same is given below:-

Alumni Feedback:

- More than 50% of the Alumni agreed that the curriculum wasappropriate to enhance employment whereas approximately 25% of the Alumni strongly agreed to the above mentioned fact.
- 57.1 % found that the course content interesting and only 10.2% strongly disagreed as they did not find the content of the curriculum interesting.
- 51% of the Alumni agreed that the curriculum helped them in developing their• personality whereas only 8.2% did not agree to the fact.

- 55.1% of the Alumni found the way of teaching appropriate with respect to the• curriculum and only 2 % disagreed with the fact.
- According to 98.1 % of the Alumni the reading material was readily available.
- Most are happy with Computer Laboratories, College library, Seminars, Guest• lectures and Workshops conducted and Projects and Field visits.
- They feel that the institution supports higher learning and the curriculum provided• in the college caters to the entrepreneurial skills of the students.
- Most of the alumni have given a very positive and motivating feedback.

Faculty Feedback

- 78.3 % of the teachers find that the learning objectives are clear and appropriate to the program whereas 10% disagree with the said fact
- 71.1 % of the faculty members believe that the system followed for the design and development of syllabus is effective and 21.7 % disagree with the fact.
- Only 78.3% of the teachers find provision to update syllabus from time to time and 21.7% do not find any provision for the same.
- Participation of teacher in syllabus framing is only 61.7 % and 38.3% of teachers feel deprived of having a role in syllabus drafting.
- 86.7% of the faculty members find textbooks/reference books readily available and suitable as per the curriculum whereas 13.3% of the teachers do find the books readily available as well as suitable for the curriculum.
- 51.7 % of the teachers find that the extension activities related to syllabus like surveys, projects, field visits etc. are conducted whereas 21.7% believe that the same are not conducted.
- Only 40% of the faculty members find the availability of study material in the college Library whereas the rest of the teachers believe that there is a need to upgrade the books in the library with respect to the curriculum.
- Only 11.7% of the faculty members find the infrastructure and Lab facilities excellent in relation to the Curriculum. (Science Labs as well as ICT labs). 30% find the facilities to be good, 23.3 % find the facilities to be very good and 35% find the facilities to be average.

Girls Hostel Solar Lights

Solid Waste Segregation

Govt. College Solan tries to have very less negative impact on the environment as the college is very conscious of generating less waste and recycling it by passing it through a system that enables the used material to be reused ensuring that less natural resources are consumed.The college has segregated waste into three parts:

1. Solid Waste
2. Liquid Waste
3. E-Waste

Solid Waste:

The waste is generated by all sorts of routine activities carried out in the College that includes paper, plastics, glass, metals, foods, etc. The waste is segregated at each level and source. The administrative supervisor in each block ensures that the waste in each floor is collected at designated time intervals. The sweepers in each floor collect, clean, segregate and compile the waste in the dustbins **(Green, Blue and Red)** provided at each floor.

The College has contacted an authorized vendor who collects the waste from the designated place, segregate them, recycles them and disposes them at the landfills authorized by the government.

Vermi Compost Pit has also been constructed near staff residential area to decompose organic waste material into nutrient rich compost, known as vermicompost used as a manure for gardening.

Liquid Waste:

Liquid waste generated by the College are of two types:

1.Sewage waste

2.Laboratory, Laundry and cafeteria effluent waste

E-Waste Management:

Waste in the form of used papers generated by electronic equipment such as Computers, Printers, Fax and Photocopy machines are recycled and reused as far as possible. The e-waste generated from hardware which cannot be reused or recycled is being disposed off centrally through government authorized vendors.
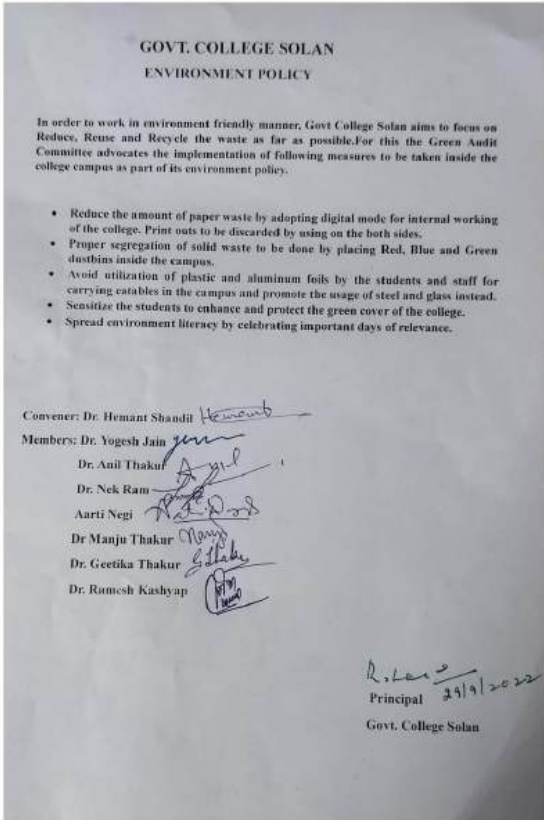

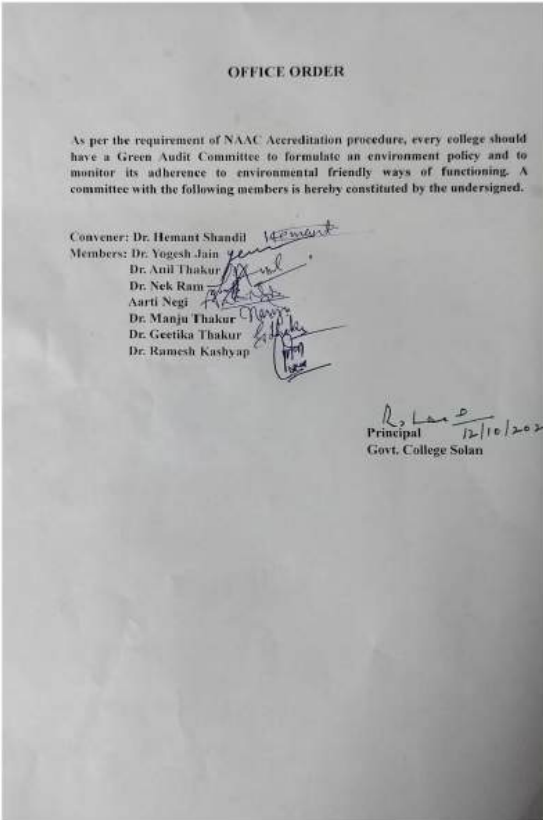

3) Rain Water Harvesting

Rain water harvesting is the process of collecting and storing rain water for reuse rather than allowing it to drain off. It is a simple, effective method of water conservation, improves groundwater and can be used gardening and flushing of toilets. It plays a significant role in sustainable water management. In our college the process of rain water harvesting is under process. Though the tank has been made further process is on its way.

4) Plastic Free Campus

The college has been actively involved in encouraging no plastic use in college campus. Though the Himachal Pradesh state has policy of not using polythene bags across the state. The campus has too initiated the Green Audit Policy where steps have been taken to make the students aware of the harmful effects of plastic has on the health and due nonbiodegradable material the havoc it is creating on our planet. Awareness programs are held along with use of steel bottles and lunch box to the students. The college canteen has also from time to time informed not use plastic disposable.

OFFICE ORDER

As per the requirement of NAAC Accreditation procedure, every college should have a Green Audit Committee to formulate an environment policy and to monitor its adherence to environmental friendly ways of functioning. A committee with the following members is hereby constituted by the undersigned.

SOCIAL IMPACT OF EXTENSION ACTIVITIES

1) Tree Plantation and Cleanliness Drive: In the current scenario there is dire need to make our society realize the importance of protecting and conserving our trees and giving utmost importance to have clean and green environment.NSS and NCC units have been playing a major role in spreading awarenessin the campus and outside to save and preserve our environment. Tree plantation and cleanliness drive were organized in and outside the campus**.**

2) Baby steps to uplift the underprivileged: Small Actions Trying to Create an Impact.

The NSS unit(6th Nov -9thNov 2023) of our college did a commendable job by bringing smile on the face of slum dwellers by collecting Rs 8000 and brought ration and sweets on the occasion of Diwali.

The NSS unit (29th Dec- 30th Dec 2023organized and collected winterclothes approximately 100 Kg and distributed in the slum area nearChambaghat.It gave our volunteers sense of satisfaction, happiness and pride that small actions can lead to wonders in the life of others.

2) "Cultural Treasures: Unveiling the Richness of Tribal Heritage"

Himachal is the land of varied cultural diversity a lecture was organized on the Tribes and their rich cultural heritage. It was an eyeopener for everyone to know about our rich culture, values and traditions. It provides an insight to understand, preserve and sustain our culture so that we could be rooted with our culture.
