AWARENESS CAMPAIGNS ON SOCIO-ECONOMIC ISSUES IN SOLAN

The Department of Geography, G.C. Solan, organized various awareness campaigns for different socio-economic issues in Solan. The students of third year were grouped into various teams and each team carried an awareness campaign on their selected socio-economic problem. The campaign included visiting important sites of concern, taking suggestions and considerations of local people and providing them with best knowledge of the concerned issue.

Awareness Campaigns were undertaken on :

GARBAGE WASTE MANAGEMENT

An awareness campaign in Solan town on Garbage Waste Management was done by Team headed by Vishal Thakur and other members were Anamika, Puhar, Suraj and Yajvendra. This campaign was done from 17th Nov. 2024 to 31st Dec. 2024 in many areas of Solan town like Uday Vihar, Deoghat , Madhuban Colony, Shilly Road, Kotlanala and Surya Vihar. The main objective of this campaign was to aware people on different types of waste (dry, wet, recyclable, hazardous), how to separate them at the source and educating the public about the importance of proper waste segregation, reducing waste generation through the 'Reduce, Reuse, Recycle'. The students also got to know the major problems that local people are facing due to poor waste management, like lack of public bins, irregular timing of waste collectors and poor disposal of waste.

TRAFFIC CONGESTION & RELATED ISSUES

Campaigning was carried out for the problem of traffic congestion in Solan town by Team headed by Mehak and other members were Monika, Anshu and Priyanshi. The campaign drive was done from 2nd September 2024 to 7th September 2024 covering the major transportation routes of the town, from Old DC Office to Kotlanala, Old DC Office to By Pass and from By Pass to Old Bus Stand. The campaign involved talking to commuters and knowing their issues along with collecting relevant information from the shopkeepers along road sides. Students awared people regarding Traffic Rules and Safety and other aspects related to transportation and driving. The objective of the drive was to understand the problem of traffic congestion in Solan and to aware people for safe driving so as to make their journey easy and convenient

WATER SHORTAGE AND MANAGEMENT

Another Awareness Campaign was carried on the problem of water shortage and its management in Solan town. The water problem converts into a crisis especially during Summers and Monsoon. This campaign was carried by Harsh, Ansh Verma, Ayush, Shubham and Ramneek Atal from 30th Nov. 2024 to 31st Dec. 2024. An academic visit was organized to Ashwini Khad, Solan and Giri Water Scheme, Gaura, Sirmaur to understand the the whole process of water supply and distribution from source to treatment and final supply to Solan town. The students talked to the local people and awared them about the importance of water as a precious element of nature and is supposed to be used judiciously. In addition to it, the problem of water was identified as problem of Economic Water Scarcity and to solve that an integrated, sustainable and cooperative solution involoving all people is required.
