## "Super Sapiens"

### Student Society of Zoology Department

The Department of Zoology created a student-led departmental society named "Super Sapiens", a group of enhanced, responsible, and wise human beings who are capable of understanding, interacting with, and protecting the living world intelligently.

**Date of Constitution:** 20.09.2025.

#### **Vision:**

*"To cultivate scientific curiosity, ecological responsibility, and ethical understanding among zoology students, empowering them to contribute meaningfully to biodiversity conservation, animal welfare, and environmental sustainability."*

#### **Mission/Objectives:**

- Promote awareness of animal behaviour, biodiversity, and conservation.
- Encourage hands-on experience through field studies, lab projects, and internships.
- Organise seminars, workshops, and awareness programs on current zoological issues.
- Foster ethical understanding of human-animal interactions and responsibility toward wildlife.
- Create a platform for student research, debates, and scientific discussions.
- Encourage collaborations with NGOs, researchers, and environmental bodies.

#### **Composition of the Society as on 20/09/2025:**

**A. Faculty Advisor:** Dr Manju Thakur

#### **B. Executive Committee:**

- **President** – Akhil (Senior-most student to lead the society.)
- **Vice-President** – Simran BSc II (Supports the president and coordinates activities)

- **Secretary** – Yashaswi, BSc III (Manages documentation, communication, and coordination)
- **Treasurer** – Sachin III (Handles funds for events and activities)
- **Event Coordinators (2-3)** – Swarit, Chahat, Aryan, Pritti BSc III (Organize workshops, field trips, and awareness programs).
- **Public Relations/Media Head** – Sakshi, Ankush (Manage publicity, social media, and outreach).
- **Additional Duties** : Amisha, Vineet, Aryan, Srishti BSc II

#### C. Members:

- Core member: Zoology major students.
- General Members: All Medical Students

#### Proposed Activities:

- Awareness campaigns on wild life, biodiversity, animal behaviour, stray animal welfare, ecological issues, and conservation.
- Field visits to forests, sanctuaries, zoological parks, and research labs.
- Seminars, guest lectures, and workshops by eminent zoologists and environmentalists.
- Inter-college quizzes, debates, and competitions, screening documentaries related to Zoology and environmental science.
- Social outreach programs: tree plantation, animal rescue, and vaccination campaigns.

#### Expected Outcomes:

- Enhanced student engagement and practical learning in Zoology.
- Increased awareness of ethical and ecological responsibilities.
- Development of leadership, teamwork, and research skills among students.
- Positive visibility for the Department and the College through community engagement and social media.
