Govt College Solan

Report on

Two Days Cleanliness and Plantation Drive

The Department of Environmental Science of Government College, Solan organised a two-day Cleanliness and Plantation Drive on 18th and 20th August 2025 in the college campus, with the objective of promoting environmental awareness and sustainable practices among students. The campaign was inaugurated by the worthy Principal, Dr. Manisha Kohli, who addressed the gathering and motivated the students to maintain cleanliness in their surroundings and to take active steps in protecting the environment. On 18th August, the programme commenced with a Cleanliness Drive. Students of B.A. and B.Sc. First Year, along with NSS volunteers, enthusiastically participated in cleaning the college campus and its adjoining areas. They collected waste, spread awareness about hygiene, and set an example of responsibility and discipline. On 20th August, the focus shifted to a Plantation Drive. Various ornamental and eco-friendly plants such as Bougainvillea, Bottle Brush, Oriental Arbovitla, and Euonymus were planted across the campus. The plantation not only added to the aesthetic beauty of the college but also contributed to the larger goal of enhancing biodiversity and reducing carbon footprint. Speaking on the occasion, Dr. Tanvi Kapoor from the Department of Environmental Science highlighted the importance of involving students in such activities. She remarked, "Keeping students aware about the environment and engaging them in initiatives like this encourages them to take active roles in the protection and conservation of ecosystems, which is extremely important in today's time
