

The BBA Department organized a vibrant extempore session titled **“Think Fast, Speak Smart!”** on 26 July 2025 within the college premises. First- and second-year students participated enthusiastically, drawing random topics, given a short preparation time, and then delivering impromptu speeches. Throughout the event, they demonstrated spontaneous thinking, clear expression, and growing confidence in front of their peers and faculty.

The speeches were evaluated by a panel of senior faculty on parameters such as content relevance, clarity of thought, confidence and body language, voice modulation fluency and Time Management. The session was well-received, engaging both participants and audience, and the feedback showed that it significantly boosted students’ communication skills, critical thinking and self-assurance. This initiative affirms the institution’s ongoing commitment to developing strong soft skills alongside academic excellence.
