

Action taken report of the Institution on feedback report

1. Interactive Smart Classrooms were set up for effective teaching methods and conducive academic environment for the student.
2. There can be no change in the syllabus as it is prescribed by affiliating university HPU and is followed as it is.
3. Learning objectives were clearly defined.
4. The design and development of the syllabus was made more effective by increasing participation of faculty members in syllabus framing.
5. It was made sure that those text books/reference books are available that are well suited to the course.
6. Books were ordered for the library as per the requisition given by various departments for making available proper study material to the students in the library.
7. Students were provided opportunities to grow and learn by organising different competitions in the college including essay writing, slogan writing, declamation, poster competition etc.

ACTION TAKEN on Feedback received from Students:

Prompt action is taken on the suggestions received from students.

1. It was suggested that new labs should be made available to students for better learning. Action Taken: Language Lab was inaugurated for linguistic development of undergraduate and postgraduate students. Under the college literary club, Expressions regular activities are conducted in the lab to encourage linguistic proficiency of students.
2. It was suggested that more indoor and outdoor activities should be provided to students.

Action taken: Cricket practice net with full pitch was inaugurated, along with playground to encourage games like basketball and volleyball. Gymnasium Hall was also inaugurated keeping health as a primary factor.

3. It was suggested that more guest lectures, career counselling and interactive sessions should be encouraged.

Action taken: Literary Talk and Quiz were organised by various departments to inculcate active learning in students.

Awareness Programs were organised by science department on world sight day.

Induction and Orientation Programmes were arranged for students.

Field Trips to industries were conducted for student growth
