Government Degree College, Solan

Subject: Request for Permission to Organize Orientation Programme for B.Sc. 1st Year (Non-Medical) Students

Respected Madam,

As the new academic session begins, the Department of Physics is looking forward to welcoming the fresh batch of **B.Sc. 1st Year (Non-Medical)** students. To make their transition into college life smoother and more meaningful, we would like to organize a short **Orientation Programme** on **Friday, 25th July 2025**, starting at **10:00 AM** in the **Conference Hall**.

The idea is to introduce students to the college environment, help them understand academic expectations, and build an early sense of belonging. We're also hoping to use this opportunity to guide them on available resources and encourage healthy interaction with faculty and peers.

We kindly seek your permission to conduct this programme and use the Conference Hall for the same. Your support would mean a lot to both the department and the students as they begin this important new chapter.

Looking forward to your kind approval.

Warm regards,

Dr Anil Thakur
Associate Professor
Department of Physics
Government Degree College, Solan
