

The Principal

Govt Degree College

Solan.

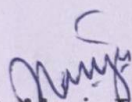

Subject: Permission to organize World Fisheries day

Ma'am,

With due respect, it is submitted that Super sapiens; The Zoological Society of Govt College Solan, is planning to organize World Fisheries Day on 21st November, 2025. The purpose of observing this day is to aware students about ornamental fishes which are kept in aquarium and to encourage them to adopt fish keeping as a hobby or as a profession in future. You are requested to allow the same.

Thanking you.

Yours faithfully,

Dr Manju Thakur

Assistant Professor

Department of Zoology

Govt. College Solan.

Dated: 20.11.25

SUPER SAPIENS : THE
SOCIETY OF GOVT. COLLEGE

Butterfly Fish

Presented by: Aanchal Bhardwaj

Habitat and Distribution

1. Goldfish are freshwater fish, preferring slow-moving or still waters.
2. Common habitats include ponds, lakes, rivers, and man-made aquariums.
3. Prefer temperate climates with moderate temperatures (18–22°C optimal).
4. Can survive in a wide range of water conditions but thrive in oxygen-rich environments.
5. Originally native to East Asia, mainly China. First selectively bred in Ancient China over 1,000 years ago.
6. Introduced worldwide due to ornamental fish trade.
7. Popular in Europe, North America, and other regions as aquarium and pond fish.
8. Adaptable to both outdoor ponds and indoor tanks, with proper care.

Indian Glass Fish (*Parambassis ranga*)

- **Morphology**

- Small transparent-bodied freshwater fish, usually 5–8 cm in length.
- Laterally compressed body with visible internal organs and skeleton.
- Silvery sheen with faint yellow or greenish tint under light.
- Two dorsal fins – the first short and spiny, the second soft-rayed.
